***Allowable Subject Matter***

1. Claims 1-11 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the applicants have presented a persuasive argument, see pages 8-9 of the response, filed on 8/19/2005, that the cited prior art of record, taken alone or in combination fails to disclose a method for forming an isolation film in a semiconductor device comprises the step of removing the pad nitride film and the pad oxide film in an isolation region so that tapered inwardly extending protrusions of a tail profile are formed from the pad nitride and pad oxide films at the top corners of the isolation region, in combination with the rest of the limitations of claim 1. The closest cited prior art of Chuang (US 5,937,309) discloses a method for fabricating STI comprises the step of removing the pad nitride film 210 and the pad oxide film 205 in isolation region and forming tapered inwardly extending protrusions 245a of a tail profile from etching sacrificial layer 225 at the top corners of the isolation region

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
